Skills

Frontend

- Javascript
- HTML, CSS
- Less
- React

Backend

- Scala
- Spring MVC
- REST API
- Node.js
- SQL

Others

- Data Structures
- Git
- Adobe Photoshop

Experience

May 2022 - Present

Zoho Corporation | Chennai | Onsite

Full Stack Developer

- Working as a full stack developer, building a no code MLOps web application, which covers the entire ML development lifecycle from data exploration & building the ml pipeline to model deployment & monitoring.
- Building full fledged features from backend APIs and business logic to frontend UI components using technologies like Scala, Spring MVC, Javascript, Internal Component-based javascript framework, Less, etc.
- Developed a role based notification generation flow for the application, based on the events related to various entities in the user's organization. Also developed the in app notification center based on this flow.
- Integrated various services related to Object Storage, web messaging and notifications into the application. Worked on migrating the static assets to a CDN & Internalization.
- Migrated the existing no code interface to an internal svg library and added new features on top of it.
- Currently working on the data visualization part of the application, to enable users to be able to visualize their datasets, further aiding in the data exploration phase.

December 2022 - April 2022

Zoho Corporation | Chennai | Onsite

Project Trainee - Internship

- Built projects using web technologies namely Spring MVC, Javascript, Jsp and jQuery.
- Learnt about frontend javascript frameworks and css libraries and integrated them in my projects.
- Developed a web application for managing cricket tournaments. Admin users can create new players, teams and tournaments & can start a match and enter scores for each matches using the admin view. Viewers will be able to look at the scoreboards and the individual stats in the app. Implemented it using Spring MVC, Java and MySQL in the backend and an internal javascript framework in the frontend.

Projects

Cricket Dugout

2022 - Built during my internship

A web application for managing scores and stats of cricket tournaments

Education

2022

B.E. Electronics and Communication Engineering

Thiagarajar College of engineering, Madurai
